PROFESSIONAL SUMMERY

Innovative and driven Software Engineer with over 4 years of comprehensive full-stack experience, proficient in JavaScript, TypeScript, React, Next.js, Node.js, Express.js, NestJS, and .NET. I am skilled in designing secure, scalable systems with robust database management (MongoDB, PostgreSQL). Adept in API integration, cloud infrastructure management, CI/CD implementation, and familiarity with security compliance standards (GDPR, OWASP). Passionate about leveraging technology to deliver high-quality products for global clients, including Fortune 500 companies.

SKILLS & ABILITIES

Core	ReactJS, NextJS, Node.js, Express.js, TypeScript, .NET, TypeORM, Docker, Prisma
Databases	MongoDB, MySQL, PostgreSQL, Redis
Cloud/DevOps	Azure (CosmosDB, Azure Functions, Azure AD B2C), AWS (EC2, Amplify, Lambda), Google Maps APIs, Azure DevOps, Nginx, Jenkins
Design	CSS3, SCSS, Material UI, Tailwind, ShadCN, Radix
Tools	VS Code, Visual Studio 2022, GitHub, DevTools, Adobe XD, Figma, Git
AI Tools	Microsoft Copilot, ChatGPT, GitHub Copilot

EXPERIENCES

2024-Present

Software Engineer, Engineering Division
Relisource Technologies Ltd., Dhaka

At Relisource, I helped the team to develop enterprise applications by contributing to cloud-native development and microservices architecture. My core responsibilities are:

- Developed scalable full-stack solutions using Next.js, TypeScript, Tailwind CSS, .NET, Node.js, and Express.js for enterprise-level cold chain monitoring applications.
- Optimized performance through effective implementation of SSR/CSR, reducing content loading times by 10%
- Developed secure microservices and modular frontend systems for maintainability and performance.
- Integrated CI/CD pipelines via Azure DevOps and ensure zero downtime deployments.

2021-2024

Software Engineer, Web-3
BJIT Group, Dhaka

- Contributed to the development of several fullstack solutions using Next.js, NestJS, Express.js, and MongoDB/PostgreSQL.
- Played a leading role in multiple projects from design to deployment, contributing to performance and UX optimization.
- Integrated 3rd-party APIs and implemented role-based access control for enterprise apps.
- Utilized Docker and AWS infrastructure (VPC, EC2) for microservices deployment.
- Built real-time features (Chat, Notification) using WebSockets.

EDUCATION

June 2021

Bachelor of Science in Computer Science and Engineering
Daffodil International University

Completed coursework in web development, database management, and software engineering. Actively contributed as an Executive Member of the Computer Programming Club and joined the Bangladesh National Cadet Core. Co-organized notable events such as the Take Off Programming Contest and the DIU Balloon Contest.

STRENGTHS

- Fast learner, can pick up new technologies with ease.
- Expertise in creating solid logic for complex frontend and backend tasks.
- Tough in research and a go-to person for cracking problems.

AWARD & CERTIFICATION

- Performer of year | BJIT Day, 2023
- 2nd Runner Up | DIU Take Off Programming Contest
- Modern Leadership | BJIT Academy
- Completed *AZ-204 Developing Solutions for Microsoft Azure* course | Udemy
